## PERSONAL QUALITIES

**Music:** I am a keen musician having played in bands and groups since an early age playing guitar. Stylistically I cover jazz, funk, soul and gospel styles. My current band has played several paid gigs. I also have a passing ability on the drum kit and am currently learning keyboards.

**Production:** Since starting sixth form I have been using Logic as a compositional tool and have produced several tracks using eq, automation and live guitar as well as samples.

**DJ'ing:** I have been building a following by DJ'ing parties and events (some paid) using both vinyl and Serato digital.

**Engineering:** I setup and mix for my church's gospel band and am building familiarity with different microphones and general PA operations on a weekly basis.
